

STREET DIXON RICK
Architecture, PLC

**MATTHEW FISHER NAMED
PROJECT DESIGNER WITH
STREET DIXON RICK
ARCHITECTURE, PLC**

Nashville, Tenn. – Architect Matthew Fisher, AIA LEED-AP, has joined Street Dixon Rick Architecture, PLC, as Project Designer, announced Baird Dixon and Steve Rick, firm principals.

Fisher's projects include work on the Broadway Hotel, Nashville, Tenn.; The Conservatory Residences, Kelowna, British Columbia; Seaside Mariana, San Rafael Del Sur, Nicaragua; and the Ribbon Hotel, Dubai, UAE. He recently served on the Metro Green Building Permits Task Force sponsored by Metro Council. Before joining Street Dixon Rick Architecture, Fisher worked with Earl Swensson Associates.

Street Dixon Rick Architecture, PLC recently celebrated LEED* Silver certification awarded by the United States Green Building Council for two Vanderbilt University residence halls, part of The Commons, where **Street Dixon Rick Architecture** provided master planning for a new campus in a historic setting.

Additional clients include the Harpeth Hall School, MTSU, First Presbyterian Church in Nashville, Juniata College in Pennsylvania and the Boys & Girls Club of Franklin/Williamson County.

Street Dixon Rick Architecture, PLC, offers an award-winning approach for creating designs and master plans for universities and schools, churches, and performance halls. The firm has taken a leadership role in sustainable design and predicts LEED accreditation will become standard for the profession. The firm believes in creating collaborative relationships with building teams.

**Leadership in Energy and Environmental Design, a building rating system developed by the United States Green Building Council.*
